

CEO Tony Callaway, A.I.A, founded and launched **Callaway Architecture** to serve a regional and national client base. He leads a talented team comprised of highly skilled architects and specialized consultants with the expertise and commitment to understand and accomplish the goals and objectives of each project.

Tony brings a diversified wealth of experience from Operations and Business Development to Project Management and Development Services. He is passionate about accomplishing client goals by defining and executing the appropriate process for project success while providing custom tailored design solutions.

Tony’s mantra of “Enjoy the Journey” reflects his commitment to create positive relationships with our clients as well as team and firm members. **Callaway** provides the professional expertise our clients deserve and expect while making the experience an enjoyable and profitable one. Tony continues to enjoy a career in architecture that began at The University of Oklahoma and has spanned over 30 years.
